Figures on Landscape Layout Line Spacing: Single- or Double-Spaced Alignment: Left-Aligned

Page Margin ← 1" ←

All Sides

Figure 4. A Figure can be any number of things.

Figures too big for portait pages may be placed on landscape pages.
Select the figure, caption, and notes.
Then choose Page Setup > Margins > Orientation.
Choose Landscape, then change "Apply to" to Selected text. This should change the layout only for the selected text/items.

Page number should be 0.75" from page edge.
